Surgical Suction

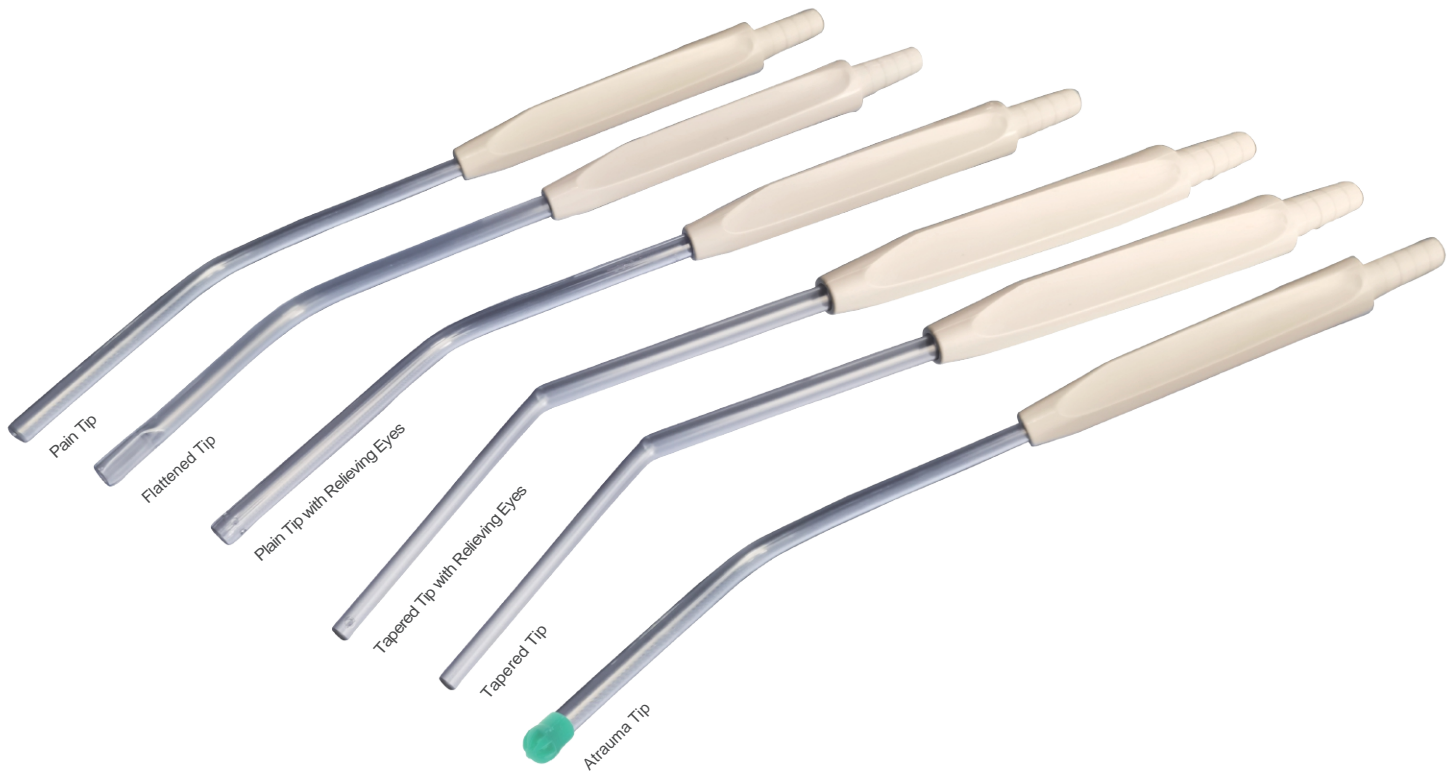

Tri-Grasp Suction Handle

Tri-Grasp suction handles are ergonomically designed to enhance comfort and control for surgeons when performing surgical suction during operative procedures.

Ergonomically designed to enhance comfort and control for surgeons

- The ergonomic design allows the surgeon to work comfortably in any position
- Lightweight design helps to minimize hand fatigue during long procedures
- Built-in vacuum control allows surgeon to apply the necessary amount of pressure
- Relieving eyes are designed to reduce the risk of tissue damage

Pain Tip
for general suction of fluids and blood during open surgery.

Plain Tip with Relieving Eyes
for general, atraumatic surgical suction.

Tapered Tip
for neurological, cosmetic, or other operations where space is limited and to increase accuracy of suctioning.

Tapered Tip with Relieving Eyes
for increased accuracy and atraumatic surgical suction when space is limited.

Flattened Tip
for suctioning between nerves and muscle tissue.

Atrauma Tip
for operations involving delicate tissue where gentle suction is required.

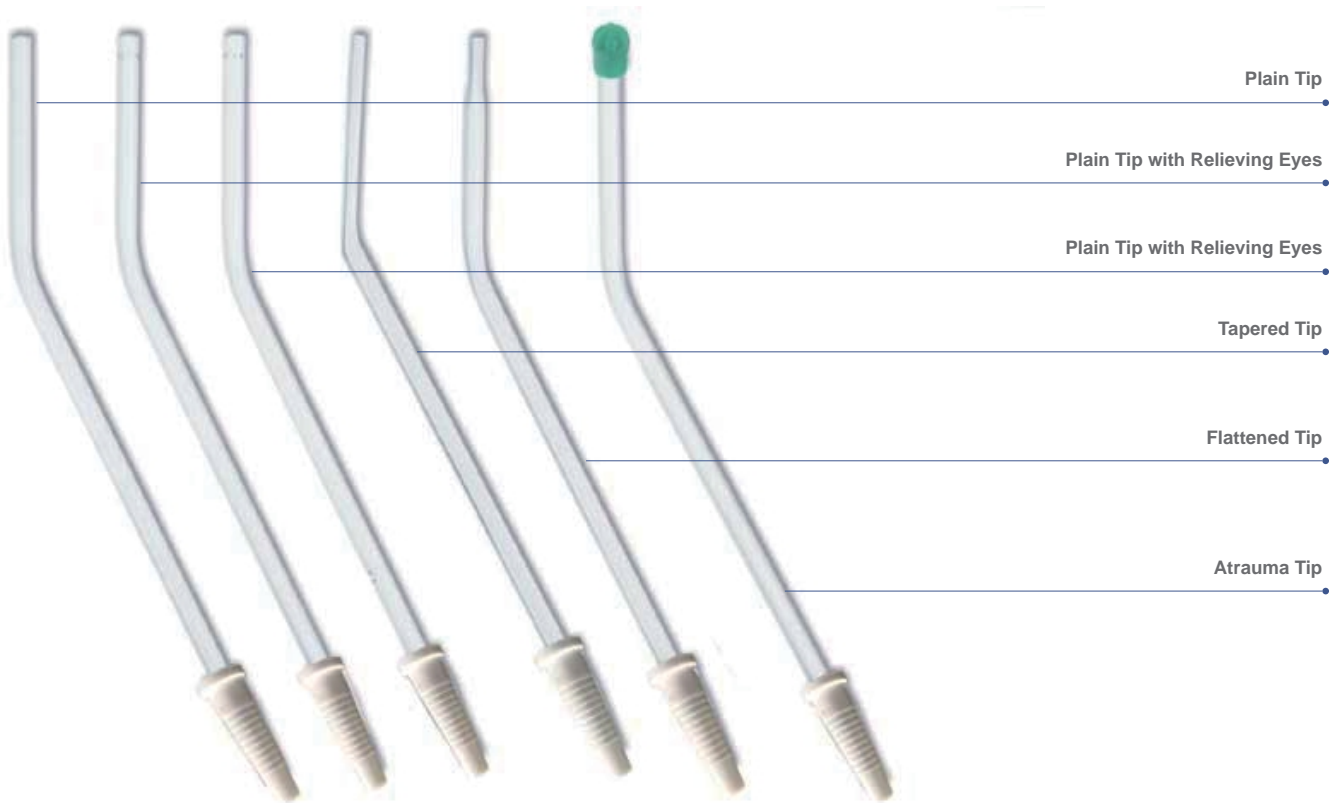

Product Code	Description	Suction Tip	Vacuum Control Vent	Lateral Eyes
GC1245E1W0	Plain tip 6.7mm with control vent, no lateral eyes	Plain tip O.D 6.7mm	Yes	No
GC1245E1N0	Plain tip 6.7mm without control vent, no lateral eyes	Plain tip O.D 6.7mm	No	No
GC1245E1W	Plain tip 6.7mm with control vent and lateral eyes	Plain tip O.D 6.7mm with 4 relieving eyes	Yes	4 relieving eyes
GC1245E1N	Plain tip 6.7mm without control vent, with lateral eyes	Plain tip O.D 6.7mm with 4 relieving eyes	No	4 relieving eyes
GC1245E1W0-24	Plain tip 8.0mm with control vent, no lateral eyes	Plain tip O.D 8.0mm	Yes	No
GC1245E1N0-24	Plain tip 8.0mm without control vent, no lateral eyes	Plain tip O.D 8.0mm	No	No
GC1245E1W-24	Plain tip 8.0mm with control vent and lateral eyes	Plain tip O.D 8.0mm with 4 relieving eyes	Yes	4 relieving eyes
GC1245E1N-24	Plain tip 8.0mm without control vent, with lateral eyes	Plain tip O.D 8.0mm with 4 relieving eyes	No	4 relieving eyes
GC1244E1W	Tapered tip with control vent, no lateral eyes	Tapered tip	Yes	No
GC1244E1N	Tapered tip without control vent, no lateral eyes	Tapered tip	No	No
GC1244E1W1	Tapered tip with control vent and lateral eyes	Tapered tip with 2 relieving eyes	Yes	2 relieving eyes
GC1244E1N1	Tapered tip without control vent, with lateral eyes	Tapered tip with 2 relieving eyes	No	2 relieving eyes
GC1248J1W	Flatten tip with control vent, no lateral eyes	Flatten tip	Yes	No
GC1248J1N	Flatten tip without control vent, no lateral eyes	Flatten tip	No	No
GC1258A6RW	Atrauma tip with control vent, no lateral eyes	Atrauma tip	Yes	No
GC1258A6RN	Atrauma tip without control vent, no lateral eyes	Atrauma tip	No	No

Male Connector Suction Tips

- Each tip features a special ribbed connector, which makes it easier to grip and exchange even with wet gloves
- A wide range of tips for application in various surgical procedures
- Built-in vacuum control is available, allowing surgeon to apply the necessary amount of pressure

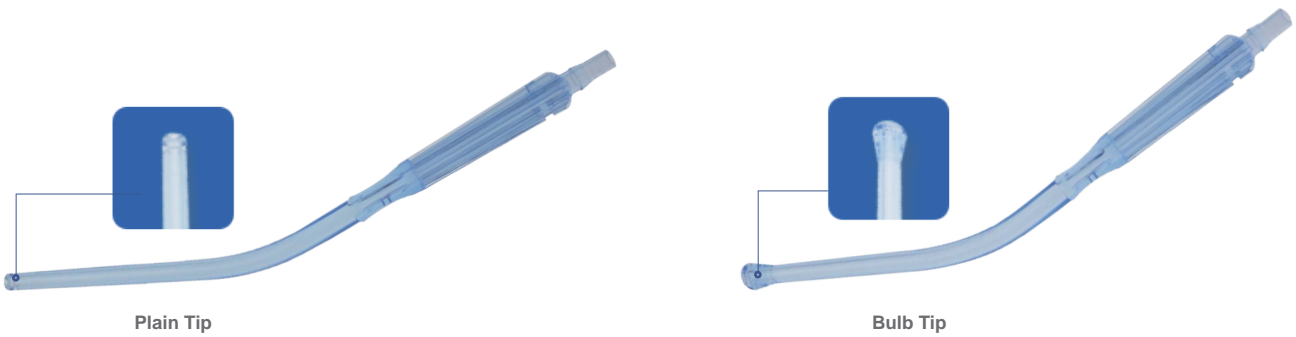

Product Code	Description	Suction Tip	Vacuum Control Vent	Lateral Eyes
GC1255E1N0	Plain tip 6.7mm without control vent, no lateral eyes	Plain tip O.D 6.7mm	No	No
GC1255E1N	Plain tip 6.7mm without control vent, with lateral eyes	Plain tip O.D 6.7mm with 4 relieving eyes	No	4 relieving eyes
GC1255E1N0	Tapered tip without control vent, no lateral eyes	Tapered tip	No	No

Product Code	Description	Suction Tip	Vacuum Control Vent	Lateral Eyes
GC1255E1N	Tapered tip without control vent, with lateral eyes	Tapered tip with 2 relieving eyes	No	2 relieving eyes
GC1256J1N	Flatten tip without control vent, no lateral eyes	Flatten tip	No	No
GC1276A6RN	Atrama tip without control vent, no lateral eyes	Atrauma tip	No	No

Molded Yankauer

- Optional vacuum control vent
- Available with bulb tip and plain tip

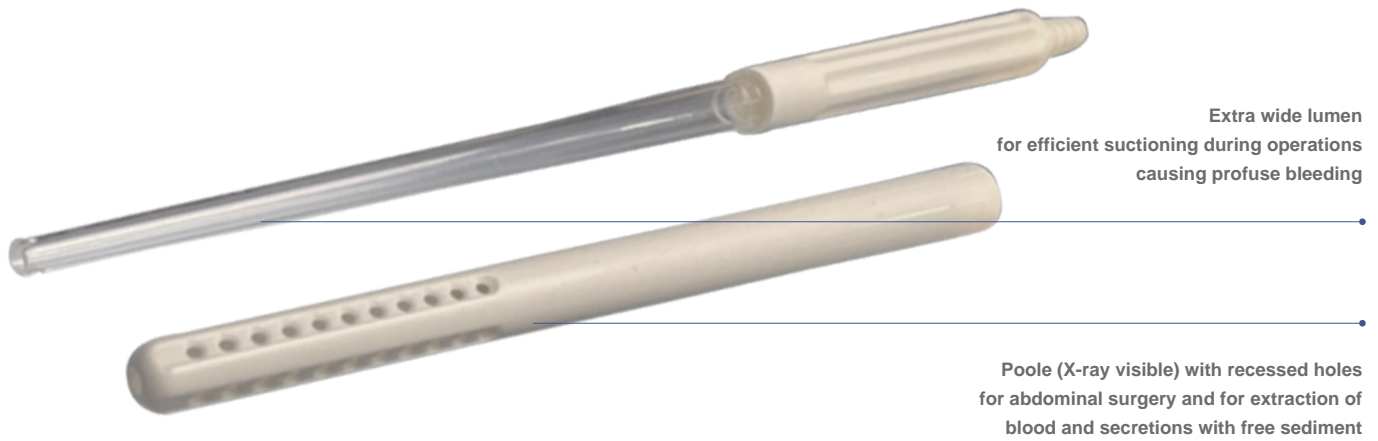

Product Code	Description
GC1233K1W	Plain tip with vacuum control vent
GC1233K1N	Plain tip without vacuum control vent
GC1229K1W	Blub tip with vacuum control vent
GC1229K1N	Bulb tip without vacuum control vent

Poole Suction Handle

- Poole suction handle with recessed holes
- Extra wide lumen for efficient suctioning during operations causing profuse bleeding

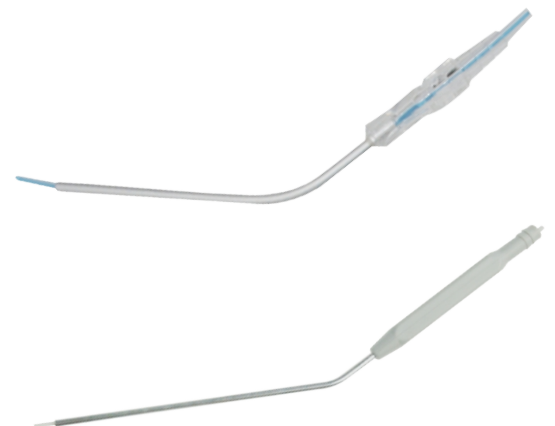

Product code	Description
GC1243N7N	X-ray visible Poole suction handle with removable sheath

Frazier Cannula

- Flexible cannula could be bent to needed position without occlusion
- Available with integrated transparent handle for visual check
- Single use for neuro-surgery

Product Code	Description
1242A08	Fr08, with control vent
1242A10	Fr10, with control vent
1242A12	Fr12 with control vent
1242A18	Fr18, with control vent
1241A06	Transparent handle,Fr06, with control vent
1241A08	Transparent handle,Fr08, with control vent
1241A10	Transparent handle,Fr10, with control vent

Orthopedic Suction Set

Orthopedic Suction Set with filter keeps the operative area visible, clean, and clear.

The special filter built into the handle automatically traps solid and can be exchanged in a matter of seconds when filled.

Increased filter capacity makes the suction set ideal for hip arthroplasty and other procedures that produce a large amount of debris.

- Non-block design decreases risk of damage to tissue and post-operative infection and complications
- Filter exchange takes only a few seconds
- Reversible suction tip available with straight or curved tip with length 15cm and 23cm

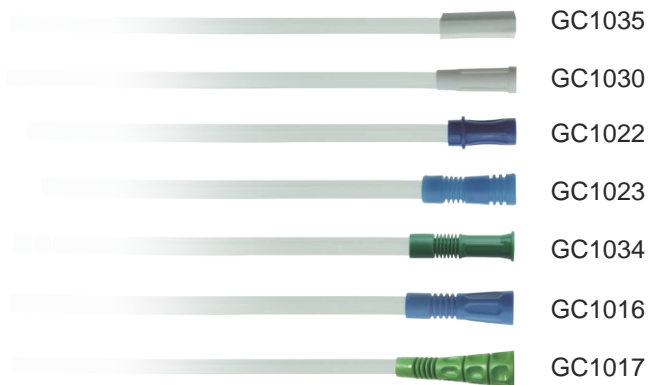

Product Code	1200A01	1200B01	1200C01	1200D01	1200E01	1200F01
Extra filter	W/O	With	With	With	With	With
Tip	15cm curved tip & 23cm curved tip	15cm curved tip & 23cm curved tip	15cm curved tip & 23cm curved tip	15cm curved tip & 15cm straight tip	23cm curved tip & 23cm straight tip	15cm curved tip

Suction Connecting Tube

FEATURES:

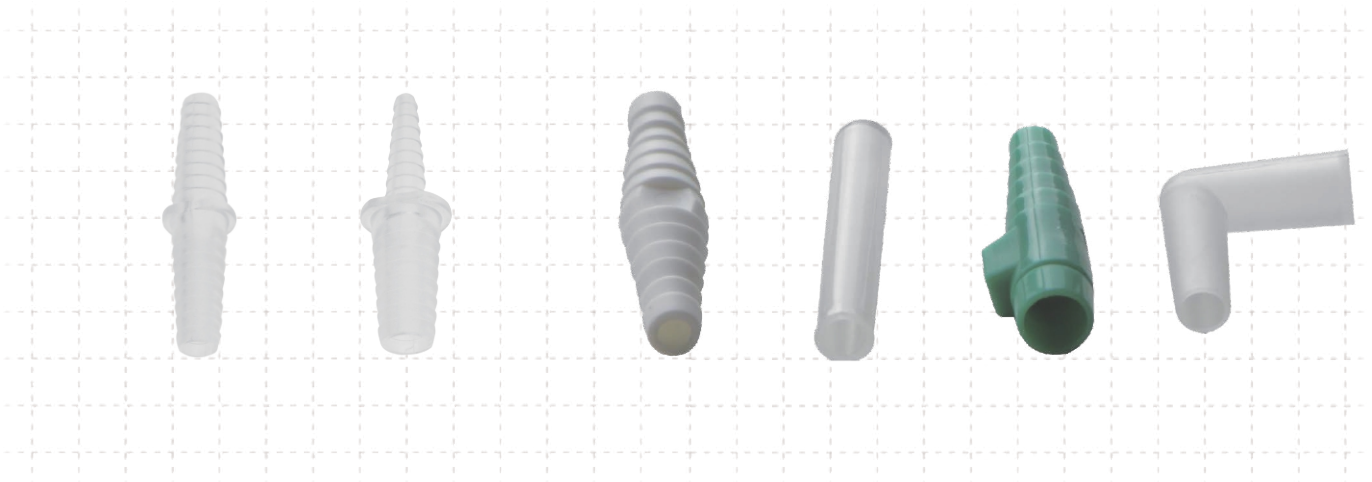

- GCMedica suction connecting tubes have different connectors available for doctor's preference
- Tube diameter is sized from 3/16' to 1/4' and 9/32'
- Length can be tailored according to customer's requirements
- GC1017 can be cut to fit all suction canisters from 8 to 14 mm

Male Connectors

FEATURES:

- Attachable to different sized tubes
- Transparent color is available for monitoring fluids
- Available in a variety of sizes

Code	O.D.	Code	O.D.	O.D.7.3-12mm	O.D 8mm	O.D 6.8-11.3mm	O.D 6.5&11.3mm
1065	4-7mm	1068	4-7mm/7-10mm	1025	1028	1024	1029
1066	7-10mm	1069	4-7mm/10-14mm				
1067	10-14mm	1070	7-10mm/10-14mm
