URINE DRAINAGE BAG

BASIC URINE BAG

Product code	Description
GC051A00	2000ml, no drain valve, anti-reflux valve
GC051A01	2000ml, push drain valve, anti-reflux valve
GC051A03	2000ml, twist drain valve, anti-reflux valve
GC051A12	2000ml, slide drain valve, anti-reflux valve
GC051A22	2000ml, slide drain valve, without anti-reflux valve

LOW BED URINE BAG

Low-Bed Drainage Bag features to facilitate proper drainage and anti-reflux valve for back-flow prevention. The exclusive slide-tap drainage port allows for minimal splashing during drainage. The drainage Bag has a reversible design for versatile placement on either side of the bed. This drain bag hangs only 6-inches (18cm) to allow low placement on an adjustable bed without touching the floor.

Product code

GC051M01

FEATURES:

- With cross valve
- With anti-reflux valve
- With reinforced double hanger & rope hanger

URINE METERS

Drainage bag with Urine Meter is a closed suction system used to accurately measure urine output and collect the urine. The device features a rigid, clear and transparent measured volume chamber for critically ill and surgical patients.

FEATURES:

- Urine meters accurately measure urine outflow for critically ill and surgical patients
- Needleless sample port with blunt cannula access
- Adjustable bed-sheet clamp for securing drain bag tubing
- Includes 7.9 mm inner diameter tubing with either 150cm length
- Designed with anti-reflux valve

GC051E11

GC051G01

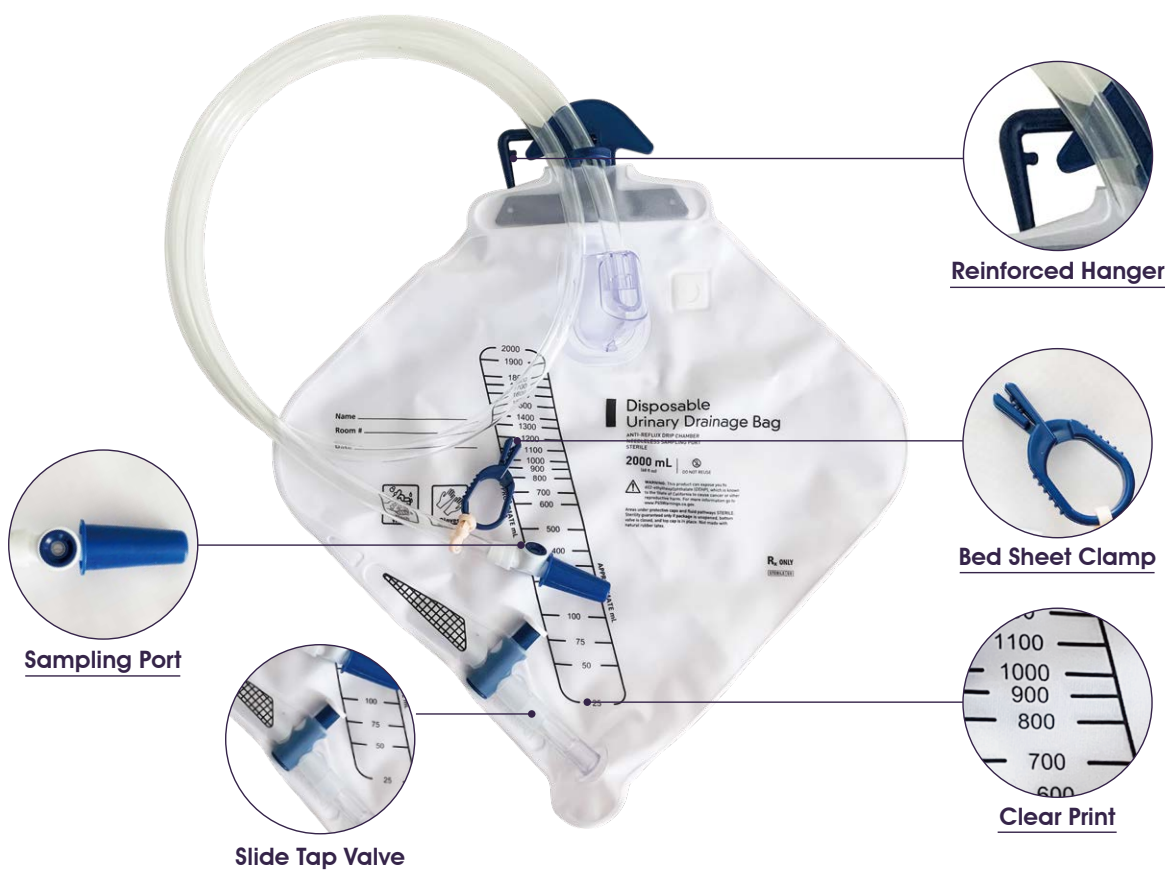

GC051G02

Product code	Description
GC051G01	400 ml Urine Meter with 2,500 ml Drain Bag, Metal Clamp, 150cm tubing
GC051G02	400 ml Urine Meter with 2,500 ml Drain Bag, Slide Tap, 150cm tubing
GC051E11	500 ml Urine Meter with 2,600 ml Drain Bag, Slide Tap, 150cm tubing

MARIGOLD URINE BAG

- 2000ml volume
- Diamond shaped bag
- Inlet anti-reflux valve
- With reinforced hanger
- With bed sheet clamp
- \varnothing 10.0x110cm inlet tubing
- Needleless sample port with cap
- Slide T-tap outlet valve
- Latex-free, single packed

Product code	Description
GC051B01	2000ml, with 110mm tube, slide tap valve

LEG BAG

Urinary Leg Bag is durably constructed for odor containment and leak resistance. The anti-reflux chamber reduces gross reflux.

Product code	Spec
GC055B05	500ml
GC055B07	750ml
GC055B10	1000ml

FEATURES:

- Elliptic shape, with anti-reflux valve
- Equipped with handle/hanger
- Design allows for even filling and draining
- Includes two flexible straps
- Single use
- Latex free

NELATON CATHETER

Product code	Description
GC05801F	18cm length tube with smooth two eyes, funnel connector
GC05802F	26cm length tube with two eyes, funnel connector
GC05801M	40cm length tube with smooth two eyes, funnel connector
GC05802M	40cm length tube with two eyes, funnel connector
GC058A	40cm length tube with one eye, closed tip, connector with cap

HYDROPHILIC CATHETER

Hydrophilic catheters are a type of pre-lubricated single-use, urinary catheter with a special coating applied to the catheter during the manufacturing process. When introduced to sterile water or sterile saline, the hydrophilic coating is activated and the catheter is ready for insertion.

Product code	Description
GC05805M	Male, FR08 – FR18, with water sachet
GC05805F	Female, FR08 – FR18, with water sachet

CATHETER SPIGOT

Catheter spigot is used to provide stop of flow for catheters hygienically during nursing procedure. It is non-invasive utilized to seal the catheter for a short time to allow urine collect in bladder.

FEATURES:

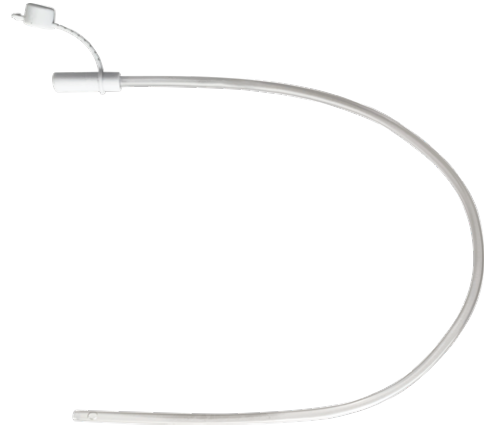

- Graduated design makes it easily accommodate tubing of various internal diameters
- Ribbed design is available
- Two sizes are available for different tube diameter

Product code	Spec
GC1971	0.D.10mm
GC1972	0.D.13mm
GC101301	Ribbed type
GC1939A01	Foley catheter adaptor

RECTAL CATHETER

The rectal plastic catheters are used for examination of rectum, administration of medicines and rectal drainage. One end of the catheter has central opening and the other has color plug. Rectal catheters are used in conjunction with delivery systems to provide an effective method of keeping your bowel movements regular and predictable.

Product code	Description
GC050A	Connector with cap, open tip, one lateral eye, FR04 - FR24

Product code	Description
GC050C06	Funnel connector, open tip, on lateral eye, FR06
GC050C08	Funnel connector, open tip, on lateral eye, FR08
GC050C10	Funnel connector, open tip, on lateral eye, FR10
GC050C12	Funnel connector, open tip, on lateral eye, FR12
GC050C14	Funnel connector, open tip, on lateral eye, FR14
GC050C16	Funnel connector, open tip, on lateral eye, FR16
GC050C18	Funnel connector, open tip, on lateral eye, FR18
GC050C20	Funnel connector, open tip, on lateral eye, FR20

SILICONE CATHETER

The Silicone catheter is a two-way catheter indicated for routine drainage of the bladder. It is a urinary catheter intended for short as well as long term drainage of the bladder. For routine and postoperative drainage. 100 % silicone catheter means gentle and hypoallergenic causing less tissue irritation and potential damage.

Product code	Description
GC062A0601	FR06, 3ml, length 30cm, with guide-wire
GC062A0621	Fr06, 3ml, length 55cm with guide-wire
GC062A0801	Fr08, 3ml, length 30cm with guide-wire
GC062A0811	Fr08, 3ml, length 35cm with guide-wire
GC062A0822	Fr08, 5ml, length 55cm with guide-wire
GC062A1001	Fr10, 3ml, length 30cm with guide-wire
GC062A1011	Fr10, 3ml, length 35cm with guide-wire
GC062A1022	Fr10, 5ml, length 55cm with guide-wire
GC062A1211	Fr12, 10ml, length 35cm
GC062A1221	Fr12, 10ml, length 55cm

SILICON MALE CATHETER

FEATURES:

Silicon male catheter is a self-adhering catheter that is made from odor-free silicone. It is latex-free to reduce skin irritation.

Transparent and clear, allowing visual inspections without the need to remove the catheter. Built in adhesive makes applications easier and allows longer wear time. A kink-proof funnel is designed to facilitate uninterrupted urine flow.

- Self-Adhering Bond
- Kink Proof Funnel for Uninterrupted Flow
- Latex-Free to Avoid Irritation
- Constructed with 100% Silicone
- Transparent for Easy Visual Skin Inspections
- Hair protector and size indicator is available for convenient application

Size Indicator

PATIENT CARE PRODUCTS

✓ SITZ BATH KITS	15
✓ ENEMA KITS	16
✓ SPECIMEN COLLECTION PAN	16
✓ MALE URINAL	17
✓ UNISEX URINAL	17
✓ TRIANGULAR GRADUATES	18

SITZ BATH KITS

FEATURES:

- Ideal for the treatment of hemorrhoids or other perineal conditions
- Provides wide, contoured edges for maximum comfort and support
- Fits most standard toilets and commodes
- Water bag can be positioned on toilet seat or on top of toilet tank
- Easy to clean durable plastic basin
- 2000ml bag with 60 inches tubing
- Portable and can administrate soothing fluids to perineal area

Product code	Description
GC054A01	Sitz bag only
GC059A01	Sitz bag with a bath basin, grey
GC059B01	Sitz bag with a bath basin, pink
GC059C01	Sitz bag with a bath basin, yellow
GC059D01	Sitz bag with a bath basin, green

ENEMA KITS

FEATURES:

- 1500ml bag or bucket with 60 inches tubing, with pre-lubricated tip
- Soap packet
- Water-proof drape: 420x420mm

Product code	Description
GC056A15	Enema bag only
GC056B15	Enema kit with bucket

SPECIMEN COLLECTION PAN

The specimen collection pan can be used in standard toilets and commodes throughout the facility for the collection and measurement of urine and fecal samples. Pans graduated in ounces and cc in large, easy-to-read black print.

Product code	Description
GC068A01	White or clear, 800ml

MALE URINAL

The male urinal is designed to prevent spills and odors with an attached snap-on lid. It features a sturdy grip for easy handling and can be used in several positions.

Product code	Description
GC065A10	Male, 1000ml

UNISEX URINAL

The unisex urinal is both convenient and portable, and is complete with an easy carry handle, designed specifically for either male or female use via the adaptor provided. After use the urinal can be sealed using the attached anti-spill lid for safe transportation and disposal. It is ideal for travel when confined in a car on a long journey and is great for bedroom use where mobility is an issue. It can be easily washed and used time and time again. It has a 1000ml capacity and is lightweight, easy to clean.

Product code	Description
GC065E10	Unisex, 1000ml

TRIANGULAR GRADUATES

FEATURES:

- Ideal for measuring intake or output, these easy-to-handle graduated containers have a frosted panel for writing pertinent patient information
- Printed black graduations for increased visibility and ease of measuring fluid level
- Graduated in 50 cc and 2 ounce increments up to 1000 cc and 32 ounce

Product code	Description
GC1922A01	Triangular Graduate
